

October 2026

THE PROFILE

**Danielle Derolf, PE****2026 – 2027 ASHE President**

In my relatively short career, I've had the opportunity to serve on a couple of boards and committees for various organizations. Being a part of the ASHE Harrisburg Board has been one of the easiest, most enjoyable, and most rewarding of all. We are immensely lucky in our group to never have a shortage of willing volunteers – each year we put out a call for new directors and often get more nominations than open positions. Those who do get a spot on the board aren't just using it as a resume booster; we have an extremely hard-working board with members who put in the time.

At our recent Happy Hour at Duke's, I had so many people complimenting me on such

A MESSAGE FROM THE PRESIDENT

a successful event. I was proud to be able to tell them that I had absolutely nothing to do with it! Our event organizers, Shaun Bentz and Spencer Bordner, were joking around that the event was “sooo hard to set up...they had to contact the venue and pick a menu!” but in all seriousness, many organizations don't have so many volunteers willing to organize an event, and it all falls on the officers. One of the reasons our board and organization are so successful is because each director steps up to fill a role and takes that responsibility seriously.

Last year when thinking about goals for my presidency, my first thought was “we're doing things so well, there's not much of anything I would change.” But one thing I did want to do was get to know the board better, on a personal level, and have everyone else on the board feel more camaraderie. In September, we held our first Board Appreciation Night of the year at Cahoots Taproom in Middletown. Nineteen of our 28 board members were able to attend, and it was a great opportunity to say ‘thanks’ to everyone for all they do with dinner and drinks while providing an opportunity for us to get to know one another a little bit better. Over Jenni Woodworth's loud objections to anything resembling an ice breaker, I made everyone share a little about themselves (no fun facts, I promised), and even she admitted it wasn't too painful. Now we all know more about each other's families, hobbies, and, thanks to a radio anecdote I probably shouldn't have shared, exactly what age each of us expects to die.

I do want to sincerely thank each member of our board for all you do to keep things running smoothly. You truly make the president's job easy, and I'm grateful to get to work with each of you.

For anyone looking to get more involved in the industry, our call for director nominations will come out in early 2027. Keep us in mind if this sounds like a board you'd like to be a part of!

—Danielle

CENTURY CLUB MEMBERS

It's time to renew your Century Club membership for 2026–2027!

Thank you to our 2025–2026 Century Club Members for your continued support and commitment. Your partnership is vital to our mission and helps advance the transportation industry throughout the Harrisburg Region.

We invite you to renew your membership for the coming year and continue supporting the connections, programs, and opportunities that strengthen our industry and our community.

Renew today and continue making an impact with us in 2026–2027!

Thankyou

Century Club Content Submission Guidelines

To ensure your sponsorship is showcased at the highest quality in our materials, please provide the following:

- **Logo** – High-resolution (300 dpi or higher) in PNG, EPS, or vector format.
- **Advertisement** – PDF file sized according to your chosen ad orientation:
 - » Vertical: 3.5" (H) x 8" (W)
 - » Horizontal: 8" (H) x 3.5" (W)
- **Company Website** – Provide a hyperlink to your company's homepage or preferred landing page.
- **File Naming** – Please name your files with your organization's name
 - » e.g., ABC_Company_Logo.png

Submission Deadline: October 3, 2026 to ensure placement in all event materials.

Send all files to: Jenni Woodworth | AD Marble | jwoodworth@admarble.com

ASHE YOUNG PROFESSIONAL SPOTLIGHT

ANTHONY MACEO

Job Title

Transportation Engineer

Employer

McCormick Taylor

Years of Experience

2 years

College/University & Degree

Bucknell University

Hometown/Where You're From

Annapolis, MD

What inspired you to pursue a career in engineering/transportation?

I have always had an interest in engineering, and I wanted to pursue a career that had a clear benefit to the public

What's a project you've worked on that you're most proud of?

The only project I've worked on that has gone to construction so far, a pavement reconstruction project in Westfield, PA at my previous firm.

Are you a part of ASHE? If yes, what do you enjoy most about being part of ASHE?

I am an ASHE member. I enjoy the opportunities to learn about the industry as well as connect with other engineers, especially in the young member group.

Outside of work, what are your hobbies or interests?

I love nature and being outdoors, hiking, and camping. I also enjoy traveling and seeing new places.

Fun fact about you that most people don't know

I love riding roller coasters and have ridden over 100 of them around the country.

If you could give one piece of advice to peer young engineers, what would it be?

Ask as many questions as possible.

College/University & Degree

Pennsylvania State University

Hometown/Where You're From

Cleona, PA

What inspired you to pursue a career in engineering/transportation?

I was always interested in the infrastructure within my area/community.

What's a project you've worked on that you're most proud of?

The SR 72 bridge over the Swatara Creek.

Outside of work, what are your hobbies or interests?

I love to hunt, workout at the gym, play ice hockey, and golf.

Fun fact about you that most people don't know

I was ranked in competitive archery when I was younger.

If you could give one piece of advice to peer young engineers, what would it be?

Begin to study plans before coming to the field. College did not prep me for how to read plans.

SEPTEMBER HAPPY HOUR • SEPTEMBER 29

ASHE Harrisburg returned again to Duke's Riverside Bar & Grille for our September Happy Hour. This event is promoted as a mixer with PennDOT District 8-0 and PTC personnel – and it did not disappoint again this year. With 150 guests registered – and close to that many in attendance – it was a room full of networking and catching up with old and new friends alike. PennDOT and PTC had a solid contingent present; in fact, they were some of the last folks still hanging out at the end of the event!

Situated right along the Susquehanna River, the casual, comfortable atmosphere at Dukes provides the perfect space for this event. One consultant provided this feedback: “On the way home I was thinking that was probably the best ASHE event I have ever attended. Just consultants and the clients, getting together and putting names to faces and talking through their issues to gain understanding for both parties. I thought it was a fantastic event.”

We couldn't agree more and want to thank everyone who came out and made this event a success!

BACK-TO-BASICS PRESENTATION • OCTOBER 6

Thanks to Lindsey Klein, of Imperial Traffic and Data Collection, for presenting an excellent Back-to-Basics session on Planning a Successful Traffic Data Collection Program! Using the fictional town of ASHEburg, Lindsey walked attendees through a variety of transportation projects requiring traffic data, including curve advisory speed and signage evaluations, school traffic and pedestrian safety improvements, bridge replacement detour planning, commercial traffic and parking assessments, corridor signal timing updates, and interchange travel pattern studies. She demonstrated how to develop an effective data collection program by defining the project purpose, required data, and deliverables; establishing study limits and collection locations and movements; determining appropriate collection periods and representative conditions; and coordinating about schedule and budget with agencies, stakeholders, and site owners. Thank you, Lindsey, for sharing your expertise and providing our members with valuable insight into planning and executing successful traffic data collection programs!
